The Expanding Your Horizons event, for seventh-, eighth- and ninth-grade girls, will be 8 a.m.-noon Saturday, Oct. 17, at Centralia College. The conference is a half day of career exploration in science and math, with hands-on workshops for girls and a special program for parents and educators.

Cost is \$10 per family, which includes materials and snacks. Scholarships are available.

The workshops are intended to stimulate girls' interest in science, technology, engineering and math (STEM) careers. Each workshop is led by women successful in these careers.

Part of the program is a science demonstration by the Oregon Museum of Science and Industry.

The registration deadline is Wednesday, Oct. 7. To register, or for more information, call (360) 736-9391, ext. 358.
