

# TransAlta Community Donation

Pete Caster / pcaster@chronline.com | Posted: Friday, July 31, 2015 7:45 pm

A construction worker saws through plywood as excavators dig through the dirt as the foundation of the new TransAlta Commons at Centralia College is built on Friday morning.

The investment is just one example of how TransAlta has given back to the community. Lori Schmitt, corporate secretary of the company, said approximately \$10 million has been donated to projects within the area by the corporation since 2006.

TransAlta is also a large contributor to the United Way of Lewis County, providing a major portion of their entire campaign, Campbell said, donating about \$200,000 a year.
